

Continuous Plastic Bag Band Sealing Machine - Heavy Type

The Continuous Sealer is ideal for large scale plastic bag/pouch sealing useful for packing Food grains, powders, cereals, tea etc. They are ideal for packaging requirements of many industries.

The machine has a heavy duty conveyor and band sealer specially meant for packing heavy bags which may not be possible to seal on table top machines.

The salient features of the machine are:

- Adjustable temperature / PID controller models suitable for a wide spectrum of materials.
- Variable speed conveyor.
- Sealing width up to 10 mm.
- Optional embossing facility on sealing on select models.
- Conveyor Speed: 0~12 m/min.
- Max Conveyor load: 15 Kgs.
- Vertical model so that the bags are sealed in the standing position.
- Models for all types of materials including virgin materials.
- Construction - MS powder coated.
