

Meat Mincer - Economy Model

This food and meat slicer offers exceptional cutting consistency and durability. The body of this slicer is anodized aluminum. The blade is designed for effortless and clean cutting. As the meat or food is fed into the funnel on top, it is squeezed by a central screw which feeds it into the front end of the machine which has a mesh with large holes and a cutting blade. The blade cuts the meat into small pieces. It is easy to disassemble for quick cleaning. It's perfect for low volume operations and available in different sizes.

The machine is available as hand operated or motorized.
