

## Popcorn Machine

The Popcorn Making Machine is a compact easy to use unit designed for the lay user. It has a sturdy frame with a new attractive panel and a bowl capacity of 400 grams. Popcorn with various delicious flavors can be made.

The machine is colorfully designed. For easy usage the control panel is conveniently placed with switches for controlling the heat, motor and lights. The machine has a stainless steel bowl within which a high quality heater is fitted. The heater provides diffused heat all around the bowl for optimum popping. The bowl is easily tiltable and can also be easily removed for cleaning from time to time. It is available with or without a table.

### Features :

- Convenience of usage
- Large bowl capacity for maximum production
- Low power consumption
- Good quality heater for fast heating and speedy production
- Stainless steel bowl and bottom tray for longer life and easy cleaning
- Easy availability of spare parts and therefore lesser downtime
- Good quality motor
- Can be used throughout the day
- Is light weight and easy for transportation.
