

Can Double Seaming Machine - Motorised - Table Model

This is a compact table top Tin Lid Double Seaming Machine for Metal & Plastic Cans.

It is easy to use. The filled can with the lid is placed on the table and the seaming switch is pressed. The table with the Can goes up into the seaming head and the two seaming rollers seam the lid in two layers – one after the other. The seamed Can, can be removed and the next one is placed.

The machine requires very little maintenance. The seaming head can be custom made to suit the lid diameter. Cans of different diameters and heights can be seamed. About 6 Cans can be seamed in a minute depending on the speed of the operator. The machine has a 1/2 Hp I ph motor.
