

## Crown Capping Machine Foot Operated - Floor Model for Glass Bottles

The Foot Operated Crowner is ideal for crown capping glass bottles. It can cap bottles from 200 ml to 1000 ml. For this the height of the bottle table can be adjusted. It is easy to install and use. The stand is made of MS. The Capping head is of Gunmetal. The machine is very sturdy.

One Crown is inserted into the filling head. A bottle is placed on the bottle table. The foot pedal is pressed and the bottle gets capped. The capped bottle is removed and the next one is placed. Fast and accurate capping are its main advantages. About 300 - 350 bottles can be capped per hour depending on the dexterity of the operator. The machine is available as Hand or Pneumatically operated also.
