

Fruit Juicer Machine Cold Press Type

- This machine is ideal for all citrus fruits.
- It is a counter top machine for fruit stalls, juice shops etc.

It is available in two capacities as follows:

- 1/2 Hp I PH motor – capacity is about 60 kgs per hour
- 1 Hp I PH motor – capacity is about 100 kgs per hour

The machine is very easy to use – the whole fruits are peeled and pushed into the hopper one after the other with the help of the wooden/nylon pusher provided. They get squeezed by the turning screw inside the machine and juice starts flowing out. The skin, fibers and seeds ect are ejected out separately.

The machine can be dismantled and cleaned in a very short time.
