

## Newman Cap Sealing Machine - Hand Operated

The Newman Cap Sealer is a hand operated tool for seaming the lids on Cans, Tins and Drums used in the edible oil and other industries. Being light in weight, it is easy to use and portable.

Place the lid on the mouth of the Tin or Can to be sealed. Place the sealer on the lid. Press the handle down and twist the machine 360 degrees. To ensure a proper crimping, turn the machine twice or thrice. The machine is made out of mild steel and its crimping rollers are hardened
