

Paste Filling Machine - Hand Operated

The machine is ideal for filling exact quantities of thick pastes. It has a hopper in which the paste is filled. The quantity per fill can be adjusted with the help of screw provided in front. Fill quantity can be adjusted from 20 ml to 100 ml as required.

The set quantity of paste is dosed every time the filling handle is pressed. The contact parts are SS 304 and the stand is cast iron. It can be installed on a table
