

Sugar Cane Juice Machine

The Sugar Cane Juicer is a sturdily built machine. It is mounted on wheels and works with a 1 Hp I ph motor. It is made of SS 304.

The machine is simple and easy to use. The sugar cane is pushed into the machine and juice starts flowing out from the outlet chute. The squeezed cane is ejected separately. It requires low maintenance. The rollers are fitted to ensure that maximum juice is extracted from the cane and nothing goes to waste. All contact parts are SS 304.
